Re: Buy America Act

TECHLITE Insulation™ and TECHLITE Acoustics™ are a U.S.-based company with common headquarters in Tempe, Arizona.

Our insulation and acoustic products that may contain foreign-sourced components but none the less qualify under the Buy America Act guidelines due to exemptions allowed when a material has no equal manufactured in the USA or when the cost to secure an equal material from a USA source exceeds set cost guidelines.

Raw materials secured abroad are machined, processed and fully assembled entirely within the United States at our facilities in Tempe Arizona using full-time TECHLITE® employees. No materials sourced overseas are pre-manufactured or pre-machined in any fashion. The main component of our products (Basotect melamine foam by BASF) is only manufactured at two locations in Germany and nowhere else in the world.

Thank you for your support.

Dave Wenzlick
